ELEVATE YOUR EXPERIENCE

WITH GAUNTT BOARD COMPANY

WE TAKE IMMENSE PRIDE IN OUR COMMITMENT TO CRAFTSMANSHIP & QUALITY

Here's FOUR reasons to choose GBC:

RICHLITE SELECTION

Our serving boards and countertops are meticulously crafted from Richlite to offer both durability and aesthetic appeal. Richlite isn't just sustainable, but it can seamlessly complement the ambiance of your restaurant.

DIVERSE RETAIL OFFERINGS

From our signature brands like Urban Carpenter™ and Coochie® to a wide array of butcher blocks, cutting boards, and kitchen essentials, our retail options cater to every aspect of your culinary requirements.

FRONT AND BACK-OF-HOUSE SOLUTIONS

Whether you need front-of-house display items or NSF-certified food prep surfaces for back-of-house operations, our comprehensive range of products is designed to streamline your processes and enhance efficiency.

PERSONALIZED TOUCH

Add sophistication to your establishment with our gifting and recognition items, including employee of the month boards and ceremonial plaques.

Choosing GBC means you'll be investing in a partnership built on trust, reliability, and a shared passion for culinary excellence.

"Let us work together to craft unforgettable dining experiences for your customers"

MARBLE	~20,000 PSI

SLAB SIZING

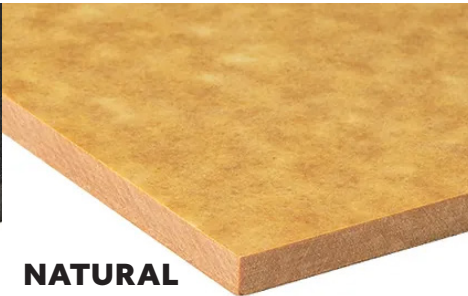

FOOD PREP COUNTERTOPS + SURFACES

As a testament to its durability, Richlite is perfect for commercial food service and can be seen in many restaurants throughout the world. With NSF 51 certification, high heat dishwasher compatibility, and low knife wear performance, the material has proven itself for four decades in this application.

RICHLITE BENEFITS

- Heat resistant up to 350°F
- Cantilever and span capabilities
- Best matte black on market
- Sheets available up to 60" x 144"
- Naturally antimicrobial ^(JIS 2801)
- Natural look and feel
- Can support any edge details
- LEED & NSF Certifications
- Custom layering ^(Cascade™)
- Made from recycled paper
- Ability to refinish countertops

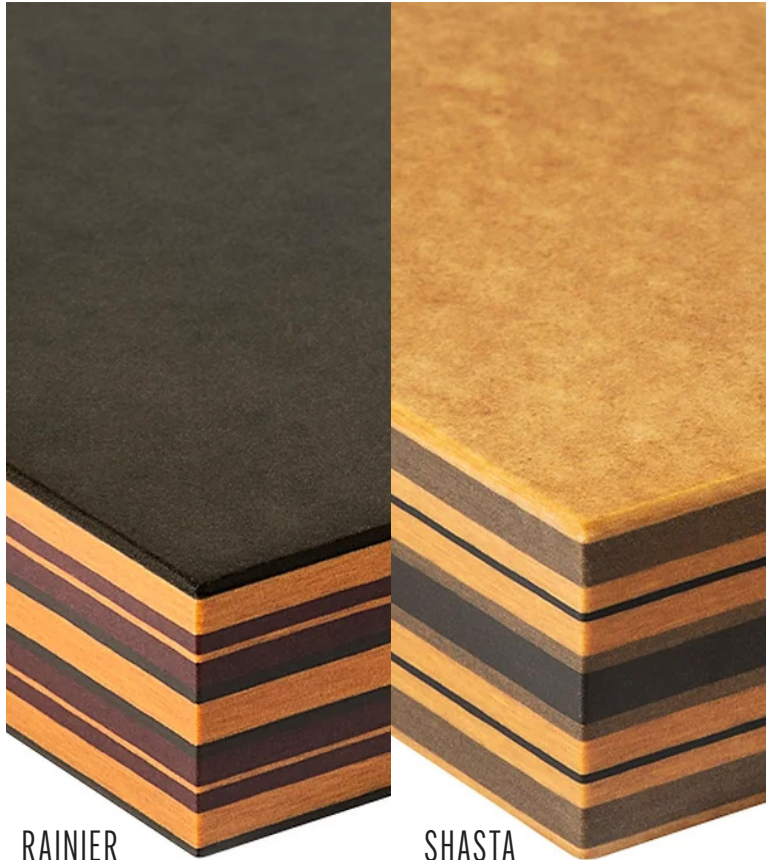

RICHLITE APPLICATIONS

- Desks | Tables | Countertops
- Exterior Siding | Cladding
- Reception areas
- Work & Lab surfaces
- Furniture & Interior Cladding

COUNTERTOPS RESIDENTIAL+COMMERCIAL

Countertops are central in our daily lives, home or workplace. They're often at the heart of activity but seldom take center stage in conversations. In reality, most stone, solid surfaces and laminated materials tend to have a cold and uninviting appearance, lacking in personality. Richlite® paper-based countertops present a notable exception. These surfaces offer a tactile softness and a natural aesthetic that stands out. Richlite has the remarkable ability to infuse warmth and character into space, sparking conversations both at home and in professional settings.

CASCADE COLLECTION

RAINIER

SHASTA

Richlite material resists stains quite well. As with all countertop materials, there is potential for staining. Most spills and light stains may be cleaned with a damp sponge or if bad enough, sanded away!

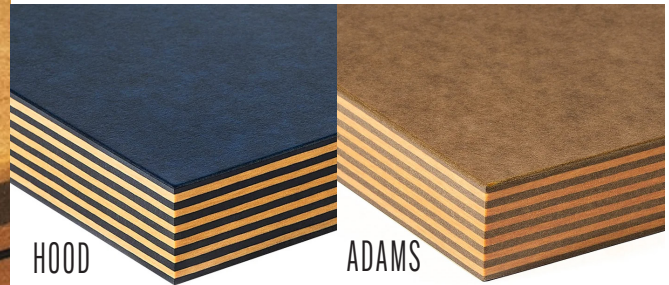

STAIN RESISTANT

Over time and with use, Richlite will develop a seasoned appearance. There will be more luster in areas of heavier use. Overall, it will appear softer and deeper in tone. It is similar to the manner in which natural wood products deepen in tone over time.

PATINA+AGING

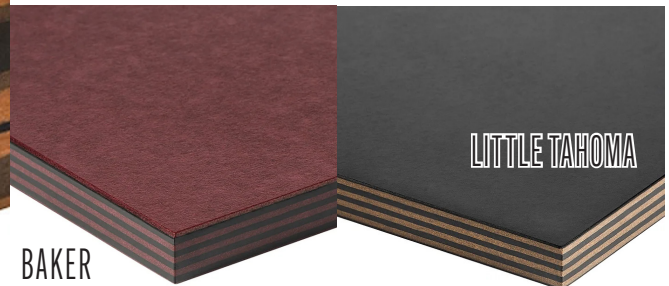

Richlite is extremely durable. It is stronger than stone and solid surfaces and can endure long spans and cantilevers without additional support. Ask us about the details!

WOOD CONDITIONER

ENSURES FOOD SAFETY

Our wood conditioner is specifically formulated to meet the highest food safety standards. After the oil is absorbed, the beeswax helps to create a protective barrier on the surface. This helps to prevent potential contaminants from penetrating the grain and ensuring that your food remains safe and hygienic.

MAINTAINS WOOD DURABILITY

Wood is a natural material susceptible to moisture absorption, warping, and cracking. Our conditioner acts as a temporary sealant, preventing moisture from seeping into the wood fibers and reducing the risk of damage. By maintaining the structural integrity of your wooden products, it helps extend their lifespan.
